

KONRAD KANTON

Classical House | Techno | Melodic House

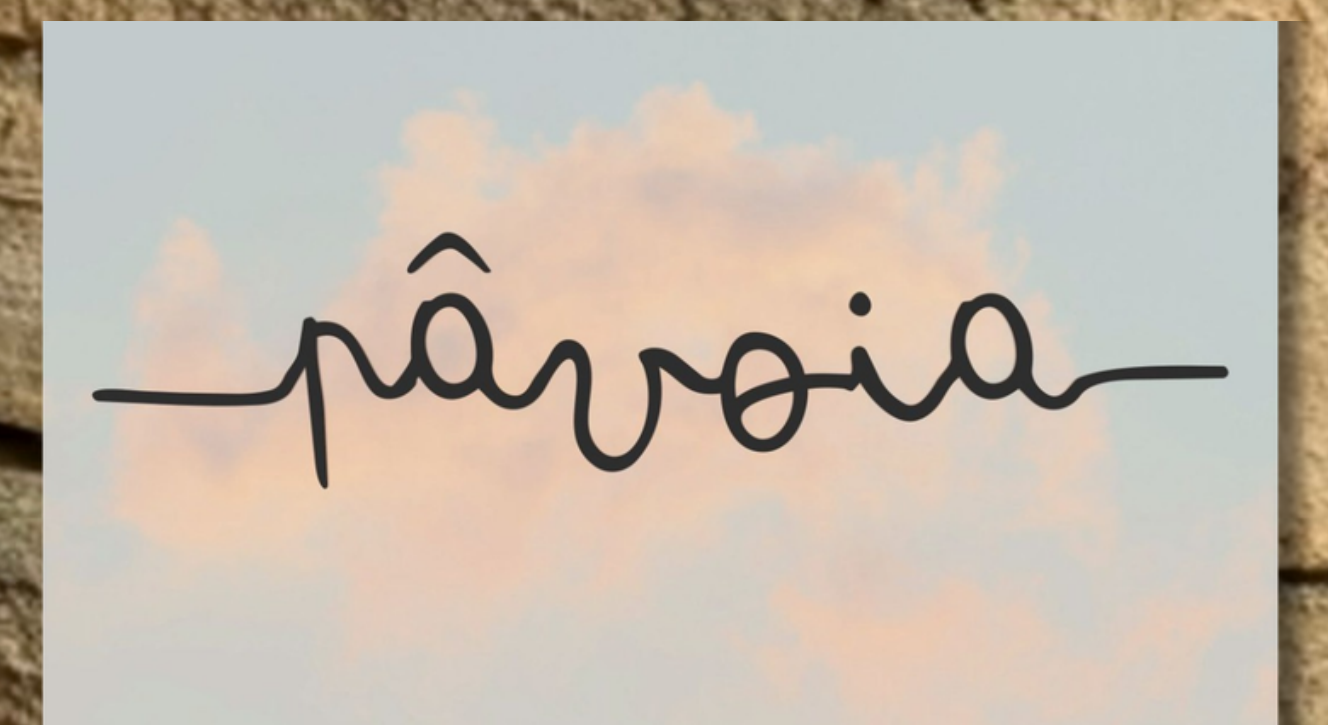

is a DJ and producer from Germany. In 2021, techno legends Pan-Pot selected Konrad as the winner of a producer competition, resulting in "Onno" — a collaboration released on their label, Second State Audio.

His sound moves between classic house and melodic house – warm, textured, and full of feel, with melodies often carried by guitar tones. Organic textures playfully merge with drum machine patterns. At the core is storytelling – a larger narrative that emerges as tracks flow into one another, carried by deliberate contrasts: raw against polished, analog against digital, melancholy against euphoria.
